

PMP® Exam Prep Onsite Classroom

Are You Qualified for the PMP Exam?

To be eligible to take the PMP exam, you must first complete the application process, which calls for you to meet specific educational and/or project management experience requirements.

We recommend reviewing the “PMP Credential Handbook” prior to beginning your course of study. Go to www.pmi.org and choose “Certification Program” from the “Professional Development & Careers” drop-down menu.

Note: *Candidates must have verifiable project management leadership experience across five processes – initiating, planning, executing, monitoring & controlling and closing.*

Are You Ready?

No question: the PMP Exam is difficult. Preparing for it requires extensive knowledge of the material and a commitment to the process.

Be sure that you’re ready to dedicate the time it will take to reach your goal of PMP Certification.

Program Overview

Level: Foundation

Length: 3-5 days

PDU/Contact Hours: 35

mScholar PMP exam preparation onsite courses prepare multiple PMP certification candidates quickly and efficiently in a classroom-based environment.

Led by a PMP-certified instructor, these intensive PMP prep sessions feature high-quality materials, team and individual exercises, homework assignments, access to online testing software, and follow-up support.

Our classroom delivery is highly customizable and we will create an onsite PMP Exam preparation course to suit your organization’s specific needs.

Here’s a sample course:

PMP Exam Prep 5-Day Delivery

In this intense five-day course, students will spend the first three days thoroughly learning essential material interspersed with team and individual exercises, homework assignments and practice exams (both written and online).

On day four, students will be involved in structured self study, followed by a Q&A session with the instructor.

Day five begins with the challenging mScholar final exam. In the afternoon, class will reconvene with a group review and final preparation for their PMP certification exam. Each student receives up to 2 hours of personal coaching outside of the classroom.

About the mScholar PMP Exam Prep Method

The foundation of all of mScholar PMP Exam Prep offerings are our comprehensive learning materials – the workbook alone contains over 350 pages and is organized into 44 distinct learning modules. These are presented in the context of a typical project life cycle, from project initiation through closing. This structure helps to instill a deeper understanding of the learning material as applied in real-world situations. Each module is self-contained, including your lesson, key terms and definitions, and primary points of information.

In addition to the workbook, the kit contains mp3 audio files on a 2G flash drive, PMP Prep Pak flash cards, and a challenging 200-question practice exam booklet.

Tuition also gains you 90-days of access to PM Final, an online PMP exam simulator with **over 900 PMP practice questions covering all PMBOK knowledge areas**. It is an essential tool that will help you to gauge your readiness for the PMP exam.

Participants may also access the mScholar® Online Student Center, to ask questions of a certified PMP® and to network with fellow students.

The mScholar® study materials each student receives as part of this course are delivered in a convenient, ready-to-travel carry-all case. Whenever a candidate has a free 15-20 minutes available to study, the mScholar® student kit is there.

The mScholar Final Exam

All mScholar PMP Exam Prep courses conclude with a high-quality, challenging final exam. Many of our students have told us that it is every bit as demanding as the actual PMP Exam. Successful completion of this course requires a passing grade of 72% in the final exam.

The mScholar® Guarantee

We believe in delivering value and quality to our customers and are confident enough to offer this course **risk-free**.

If you pass your mScholar PMP Prep Final Exam and fail to pass your PMI PMP Exam on your first attempt, mScholar will pay for you to retake the exam up to two times at the PMI member rate provided that you work with mScholar to create a study plan. In the unlikely event that you are unable to pass the PMP Exam after two retakes, you may return your course materials and we will reimburse the full cost of your course.

For the guarantee to be in effect:

Your first PMI PMP Exam must be taken within 21 days of successfully passing the mScholar PMP Prep Final Exam. Retakes of the PMI PMP Exam must be taken within 30 days of the last attempt. In addition, the PMI PMP Exam must be based on the same version of the PMBOK Guide as your mScholar Final Exam.

35 Contact Hours Awarded

Individuals attending an mScholar PMP Exam Prep course will receive 35 contact hours/PDUs upon successful completion, which can be used towards satisfying PMI's 35-contact hour training requirement.
