PMP® & CAPM® Exam Prep 2010 Course Schedule

Here's What Our Students Say . . .

"In PMP Exam Prep, the chronological order of the project management processes as opposed to the PMBOK's organization by knowledge area was extremely helpful. The instructor did an excellent job of defining each process and piecing them together to form a cohesive understanding of project management through PMI's view. The course materials were easier to read and decipher than the PMBOK."

"Learning over a period of 8-10 weeks [study group solution] with mScholar is much more beneficial and longer lasting than cramming for the PMP over a weekend. The very process-oriented approach and also the multiple reinforcements of key concepts through reading, listening to the audio and relaxation."

"I would highly recommend the mScholar PMP Exam Prep course to anyone who is seriously pursuing the PMP certification. The overall components of the study program, in conjunction with the support of the mScholar staff, allowed me to feel confident on exam day."

The mScholar Risk Free Guarantee

If you pass your mScholar PMP Prep Final Exam and fail to pass your PMI PMP Exam on your first attempt, mScholar will pay for you to retake the exam up to two times at the PMI member rate provided that you work with mScholar to create a study plan.

In the unlikely event that you are unable to pass the PMP Exam after two retakes, you may return your course materials and we will reimburse the full cost of your course.

The Importance of Certification

Project managers who earn PMP® or CAPM® certification are helping their company to build the project management capability needed for business success. PMPs and CAPMs understand and apply project management in accordance with globally accepted best practices, as recommended in PMI's Guide to the Project Management Body of Knowledge. The requirements to attain certification include a thorough and proven knowledge of the PMBOK® Guide content.

Are You Ready for Certification?

To be eligible to take the PMP or CAPM exams, you must first complete the application process, which calls for you to meet specific educational and/or project management experience requirements. PMP candidates, in particular, must have verifiable project management experience across five processes – initiating, planning, executing, monitoring & controlling and closing.

We recommend reviewing the PMP and CAPM credential handbooks prior to beginning a chosen course of study. Visit www.pmi.org and choose "Career Development" from the menu bar for full details.

Enrollment & Tuition Information

To enroll, go to www.mscholar.com.

Group discounts are available!

For questions or more information on any of our courses, contact mScholar Customer Service at **978.824.0400**. *Note:* Tuition for PMP and CAPM Prep courses does not include shipping fees or PMI's exam fees.

Note: We reserve the right to cancel or combine classes due to low enrollment. If this occurs a 14-day notice is typically provided to enrollees.

Course Summaries

PMP® Exam Prep 3+1 Workout

With our unique 3+1 method, students spend three consecutive days focusing on essential material and participating in team and individual exercises. Homework and practice exams (written and online) are also assigned. Then, they'll focus on independent study and coaching through our Online Student Center, to prepare for their upcoming mScholar final exam. After the exam, students will reconvene for a 1-day review and final preparation for their PMP certification exam.

PMP® Exam Prep Study Retreat

In this intense five-day classroom course, students will thoroughly learn essential material interspersed with team and individual exercises, structured self study, homework assignments and practice exams (written and online). The mScholar final exam and a last review session will conclude this course.

PMP® Exam Prep Virtual Study Group

Each virtual study group includes up to 20 PMP candidates and follows a 10-week structured program, supported with quality learning materials, virtual web conferencing sessions and personalized coaching. Weekly homework is also assigned.

PMP® Exam Prep Course Materials

All mScholar® PMP® Exam Prep courses include our student kit in a convenient carry-all, containing a comprehensive workbook, audio mp3 course overview, Prep Pak flashcards,

six practice exams, course navigation map and a PMBOK® Guide. Classroom and VSG courses also include a 90-day subscription to PM Final online testing software.

CAPM® Exam Prep Virtual Study Group

CAPM virtual study groups include up to 20 students and follow a 6-week structured program, supported with quality learning materials, virtual web conferencing sessions and personalized coaching. Weekly homework is also assigned.

This course includes our student kit in a convenient carry-all, containing a comprehensive workbook, Prep Pak flashcards, course navigation map and a PMBOK® Guide. Also included is a 90-day subscription to PM Final online testing software.

Final Exams & Contact Hours

All mScholar PMP and CAPM Exam Prep courses conclude with a high-quality, challenging final exam, which requires a passing grade of 72%. Many of our students have told us that they are every bit as demanding as the actual PMI exams and provide a true assessment of your readiness for certification.

Upon completion of the mScholar final exam, students will be awarded either 35 (PMP) or 23 (CAPM) contact hours, which will satisfy PMI's project management educational requirements.

The Benefits of Certification

Value Proposition	Company	Individual
Credibility	Enables company to offer PMs with recognizable credential to clients. Provides assurance and common language between you and client, increasing customer satisfaction.	Increased confidence, clarified expectations, less effort wasted on establishing credibility with project team.
Predictability /Consistency	Methodology is applicable across projects from various business units with predictable results. Improves on time and budget estimation, and aligns to strategic business goals.	PMs feel comfortable moving between organizations. Increases PM's value to the organization. Provides training for becoming a company leader.
Morale/Trust	PMs understand that their discipline is recognized and respected. Movement between organizations is facilitated. Morale is improved and the company has more of a "known quantity" in their PM workforce.	PMs understand that their discipline is recognized and respected. Movement between organizations is facilitated. Morale is improved and PMs know that the credential is valued at the company.
Bottom Line	Better ROI from projects based on more predictable, consistent delivery. Increased marketability of PM services.	Better salary and career advancement opportunities.
